Agility

- ✓ Helps socialize
- ✓ Improves attitude
- ✓ Removes fears

Accredited and recommended
by ANACP (Association)

Agility

PSICOLOGICAL BENEFITS

Agility invites dogs to overcome obstacles and fears generated due to habits learned in their day to day urban life. Agility develops psychological straight to overcome these difficulties.

PHYSICAL BENEFITS

Dogs are subjected to our sedentary life style. Therefore, intense exercise at the end of the day will help them to feel and rest better.

OBJETIVES

Helps socialize and educate dogs in an urban environment. Improve the physical health of our dogs. Integrate Agility in our society as a sporting activity. Respectfully educate our dogs.

ENVIROMENT FRIENDLY

All of our materials are made of recycle and recyclable plastics, from urban and industrial waste. Its is our commitment to the environment to avoid consuming non recycled products.

SECURITY

Since the material is non fibrous, splinters, cracks and imperfections do not exist which prevents accidents and injury on our dogs paws.

These plastic wastes are processed appropriately in recycling plants. The plastic is shredded and extruded to create elements of the Agility by MADERPLAY.
